**"MAKING CREATIVITY HAPPEN IN EDUCATION"**

After ELEVEN tremendously successful annual international creativity conferences in South Africa (2006 will be the 12<sup>th</sup>), it is without a doubt the right time to organise an international conference specifically for everyone who is serious about **EDUCATION**. The theme for this first historic event is: "**Making creativity happen in Education**".

The South African creativity gurus, Kobus Neethling and Rachè Rutherford, will present at this conference, as well as education leaders in South Africa. Most of the global creativity experts and leaders have already accepted the invitation to present at this world-first event i.e

Andrei Aleinikov (inventor of mega creativity), Olwen Wolfe, leading creativity expert in France, Sandra Minnee, creativity leader in the Netherlands, Kanes Raja from the UK, Alan Black, Ed Wiseman and the Einstein expert, Win Wenger from the USA, will be presenting on "Teaching your children to think like Einstein", "Designing a curriculum that will transform learners into opportunity finders and solution thinkers"; "Thinking completely outside the Box" and many more cutting edge topics.

Every critical aspect of education – leadership, management, teaching, learning, building relationships, discipline, communication, finding unique ideas, whole brain applications will be addressed.

**This is a world first and the aim is to make this an annual event which could transform South African into the Creative Education Hub of the World.**

The 11 **Annual International Creativity Conferences** for the general public organised by the South African Creativity Foundation have all been booked out every year months before the event so we urge you to make your reservations as soon as possible.

The all inclusive fee for this conference is **R4000,00** which covers accommodation, all meals and registration fee for the conference at this beautiful Goudini resort – not more than an hour's drive from Cape Town Airport.
